PTY. LTD.**

**A safe & quick-acting nitrogen fertilizer that's
easy to use!**

LIG-NIT 32%

VINES

Use in conjunction with VIGOR-LIG PLUS to promote quick & even development of vines.

Application Rate: 2-5 L/ha

POTATO CROPS

On sandy soils under center pivot irrigation LIG-NIT is a viable & cost effective nitrogen alternative to ammonium nitrate.

Application Rate: 5 sprays @ 20 L/ha during the growing season.

VEGETABLE CROPS

Perfect for tomato crops & other high N demand field crops that require a quick nitrogen boost

Application Rate: 5-10 L/ha

HYDROPONICS

Ideal for use in glasshouses & hydroponic production. Very safe & quick response. No need to alter nutrient solutions.

Application Rate: 1-2 L/200 L

TREE CROPS

Widely used in citrus crops as an excellent replacement for urea. Good early in the season for promoting new growth when soil temperatures are still low.

Application Rate: 5 L/ha

TURF

Excellent on any turf. Easy to use, quick response, improves colour & won't leach from soil profile.

Application Rate: 50 mL/100 m²
