Vegetable Crops

Improves early growth & plant health. Binds to leaves & is excellent for early application in carrot crops with limited leaf area. Apply with LIG-K + BORON @ 10 L/ha for tuber filling.

Application: 2-4 L/ha every 2-3 weeks.

Tree Crops

Ideal for quick development of young trees on alkaline soils, especially when used in combination with VIGOR-LIG PLUS @ 3 L/ha.

Application: 2-4 L/ha every 4 weeks.

Fruit Crops

Fast availability of nutrients in quick growing crops. Widely used with Lig-Calcium + Boron @ 5 L/ha in cucurbits at Kununurra WA & other quick growing areas.

Application: 2-4 L/ha every 14 days.
